SCHOLAR ATHELETE

An asterisk () on the roster denotes a Scholar Athlete with an accumulative GPA of 3.2 or higher for the preceding grading period.*

OSAA SPORTSMANSHIP STATEMENT

Interscholastic activities are an integral part of the educational curriculum and experience. High school activities promote the character development of participants, enhance the educational mission and promote civility in society.

Therefore, student-athletes, coaches, spectators and all others associated with high school activities programs and events should adhere to the fundamental values of respect, fairness, honesty, and responsibility. These values should be established as a priority among all OSAA member high schools.

It is the responsibility of each member high school to establish policies for sportsmanship and ethical conduct consistent with the educational mission and goals of that school and to continually educate students, coaches, teachers, parents, and all involved about those policies.
